PERSONAL STATEMENT

I'm a driven, curious student with a goal of being a Data or Software Engineer. With prior experience as a Data Consultant intern, I am striving to learn as much as possible and create amazing solutions for clients.

"To infinity and beyond 🚀" – Some famous person

INTERNSHIP EXPERIENCE

Data Consultant Intern at Qrious

Nov 2023 – Feb 2024

- Learnt *PowerBI* and developed a modern financial dashboard in an *Agile Team* environment for the Finance sector to report to the leadership group.
- Developed an *End-to-End data pipeline* in an *Agile Team* environment. The pipeline consisted of the development of a *Python Webscraper* for Ingestion and *Microsoft Fabric* for Transformation and Reporting.
- Lead a 30-person client facing Data Requirements Gathering workshop using effective *communication* to organise a group and collect the insights needed.
- *Self-managed* and *Self-taught* many skills during the role as Qrious works with an Empowerment mindset where employees are encouraged and expected to keep themselves busy.

TECHNICAL SKILLS

Snowflake	Python	Java	SQL	Microsoft Fabric	Agile
Microsoft Azure	Jira	Miro	Teams	Git	CSS

INTERESTS

In my spare time I enjoy a healthy balance of activity and laziness. I play football for Mt Albert Ponsonby, my favourite club is Manchester City. If you need any movie/tv recommendations then I'm your guy, I love myself a good movie in the weekends. Best movie of all time is Spiderman – Into the Spideverse.
